Reciprocity Treaty is Possible Between This Country and Canada to Avert Retaliatory Measures

Danger of Tariff War Recognized by Both Parties and All Concessions Are Proposed.

Washington, March 26.—The settlement of the Canadian-American tariff difficulties now is assured. Secretary Knox made the statement that the conference with Ministers Fielding and Graham is concluded and a friendly understanding was arrived at. The official announcement is expected to be made at Ottawa and Washington March 30.

The effort to avert a tariff war was resumed this morning in a conference between the state department and Canadian Minister W. S. Fielding. It is said that every possible concession permissible under the law will be made to Canada. It is possible that a reciprocity treaty between Canada and the United States may result from negotiations.

Ballinger Not Subpoenaed.

Washington, March 26.—Secretary of the Interior Ballinger will not be called to the stand in the congressional inquiry until his own attorney gives the word. The committee today after an executive session refused to grant the request of Attorney Brandeis, of the prosecution, that Ballinger be called at once.

Attorney Brandeis, representing the prosecution, protested the decision of the committee. He said the refusal to call him denies the opportunity to get at facts. He asked if Ballinger would be called at the close of Mr. Steele's testimony. He was told by Attorney Vertrees, representing the defense, that Ballinger will go on the stand when the defense calls him and not before.

Brandeis said that truthfulness has now become one of the issues in the case. He maintained that Ballinger should be subject to the ordinary tests of veracity used in ordinary cases. He claimed Ballinger had a chance to frame up testimony to accord with the testimony of other witnesses, if he is not called to the stand at once. The decision was held final and argument stopped.

Shackleton's Challenge.

Washington, March 26.—Sir Ernest Shackleton, the British Antarctic explorer, announced on the threshold of the white house his purpose to defeat the United States in the race for the south pole. He said he is determined the flag of Great Britain shall float first there. He discussed Arctic and Antarctic questions with President Taft. He will deliver a lecture tonight. His audience will include President Taft and the entire diplomatic corps.

The explorer was accompanied all day by James Bryce, English ambassador to the United States. He said he will not lose the English dash for the pole next year, but will personally supervise all the preparations. He says while feeling cordial toward the American people, he is most determined that no other country shall wave its flag over the south pole before England.

Traffic was delayed today by a freight wreck on the Illinois Central just south of Kuttawa. The third section of freight train, No. 155, crossed Poplar creek, when several cars jumped the track and were derailed. The Paducah wrecker was called out to clear the obstruction, but it will be night before traffic is resumed.

Roosevelt is First "Plain Citizen" There

Calro, March 26.—Roosevelt held a reception on the terrace of Shephard's hotel this morning. The crowd sang America. Roosevelt declared he is "glad the lions did not do their duty." He visited Calro university, had luncheon in the Abdin palace as the guest of the Khedive, and will be the guest of honor at a dinner given by Consul General Iddings tonight. All the prominent citizens and officials will be present.

Roosevelt refused to talk politics at this morning's reception on the terrace of Shephard's hotel. It is now known that he is thoroughly conversant with American politics at the present time. He shook hands with all the guests as he formerly did in the white house.

Roosevelt as guest of the Khedive at luncheon was the first foreigner without official rank who ever sat at the Khedive's table. Wu Ting Fang, former Chinese minister to the United States, paid his respects after the colonel arrived back at the hotel. A call is expected from Prince Etel Frederick, son of the Kaiser.

To Build New Church.

Jackson, Tenn., March 26.—At the meeting of the congregation of the Middle avenue church last night it was decided to build a new church, and a committee on plans and specifications was appointed. The church when completed will be one of the most up-to-date of the smaller churches of the city.

WALLACE PARK TO BE OPENED MAY 15 FOR THE SUMMER

Many Additions to Amusements and Convenience for the Patrons.

Dea's Band Will Discourse Sweet Music.

MANAGEMENT IS PROGRESSIVE.

Wallace park will be one of the most attractive spots around Paducah this summer, according to the plans that have been outlined by Mr. H. B. Sewall, manager of the Paducah Traction company. For the purpose of making it a recreation place for the people a number of improvements will be made and others are being contemplated.

The regular opening of the park will be May 15, when the season will open in full blast. Flowers have been planted already and arrangements made to keep the lawn in shape all during the season. The park lake will also be improved and kept in shape. This year fishing will be permitted in the lake with the restriction that all fish except sun fish under six inches in length will be thrown back into the lake. This will be pleasant news to the anglers, as there are fish of considerable size in the lake. Next fall it is intended to restock the lake with fish and make it a mecca for anglers.

All the boats will be painted and placed at the service of boating parties, while the bathing house will be improved and conveniences arranged for those who desire to take a dip. Some swans will be secured to reside on the lake, adding to the attractiveness of the place.

Some monkeys will be added to the menagerie, squirrels will inhabit the trees and possibly a deer placed in the park. This will interest the youngsters, while other recreations will be provided by swings and plenty of room to romp and play.

Mr. Sewall is progressive and intends to build up the park. In discussing the park he said: "It is our intention to cater to the people. We want to make the park an enjoyable place, where the people may find recreation after the day's work, and especially to supper parties. Long picnic tables will be built so that the picnic parties will not have to spread the supper on the grass. We want in every way to encourage the picnic parties, and have secured advertising matter for the surrounding towns in an effort to interest excursion parties to come to Paducah, where they may see the city and visit the park. Check rooms will be provided for the picnic parties to check baskets. Also it is proposed to have a place where supper may be secured. The plans for this have not matured, but we would like to have a large place screened in where the best food can be served at economical prices. This would enable people to secure lunches at the park without the trouble of bringing the food.

Band.

Dea's band has been engaged to give the regular Sunday afternoon concert and three nights during the week. Popular music and classical pieces, such as the people desire, will be played. Dea's orchestra will provide music for the dancing pavilion. The pavilion will be open for public dances twice each week and the season will be inaugurated with one free dance, which will continue for a while. The dancing pavilion will be open at all times to engagements by private parties, and this season the price will be reduced to \$5 a night. For the accommodation of parties special cars leaving the park before midnight can be chartered at \$2.50, while after midnight the cars will carry parties to the city for \$5.

The "third degree," which is owned by a Louisville company, probably will be operated during the summer. Negotiations are on for the installation of a roller coaster. As many amusements a possible will be installed and it is hoped that the season will be secured.

Mr. Sewall stated that the park would be open to automobile and driving parties, and they would be extended the same courtesies as the people who use the cars as a means of transportation to the park. The latest string will be out for the general public.

Easter Egg Hunt.

Tomorrow the park will be open for the annual Easter egg hunt, and it will be besieged by young America. On the Chautauque grounds in the rear of the park several thousand gayly colored eggs have been concealed and at 3:30 o'clock tomorrow afternoon the flag will be dropped and every youngster will be entitled to as many eggs as he can find. Concealed about the premises will be three prize eggs. The child finding the golden egg will receive \$3, the

silver egg will be worth \$2 while the bronze egg will bring \$1. A large crowd of elders will be out to see the sport.

Governor Willson Puts Ax to All Appropriation Laws Because The Legislature Provided No Funds

Normal Schools, State University, Tuberculosis Sanatorium and State Fair Meet Same Fate.

Frankfort, Ky., March 26. (Special.)—Governor Willson vetoed the bill appropriating \$22,500 to each Normal school and \$30,000 to the State University; he vetoed \$38,000 appropriation for the state fair and \$16,000 for the tuberculosis sanatorium; he cut the deaf and dumb school to \$10,000 and the blind institute to \$17,000, and allowed the libel bill to become a law without signing it. In vetoing the appropriation bills he severely condemned the legislature for failure to provide means for meeting the deficit. He said most of the appropriation bills are fair, but there was no money to pay them.

Normal Schools, State University, Tuberculosis Sanatorium and State Fair Meet Same Fate.

Marion, Ky., March 26. (Special.)—In order that there might not be any question regarding the validity of the petit jurors, Circuit Judge Gordon adjourned the Crittenden circuit court yesterday afternoon until Monday morning, when the trial of alleged night rider captives will be taken up, while the sheriff is summing up grand jurors.

Night Rider Cases.

This week the trials of Tom Jones, Alonzo Gray, Boone Bush and Ott Peak, alleged night rider captives in the raid on the home of Henry Bennett, were called. Peak is ill of the measles and Gray's mother is critically ill, and their trials were continued. When the trials of Bush and Jones were called the attorneys objected to the jurors, saying that one of the jury commissioners was not a housekeeper and another commissioner was not eligible because he had a case pending in court. Evidence was brought regarding the commissioners, and Judge Gordon decided it would be wise not to leave any gaps.

He dismissed the petit and grand jurors, appointed new jury commissioners, refilled the jury wheel, drew the names of new jurors, and adjourned court until Monday so that the sheriff might summon the new jurors. He announced that court will begin promptly Monday morning. Hard fought trials are expected, as the defense has sought to take advantage of every slip the commonwealth might make.

Jackson, Ky., March 26. (Special.)—Fire in the business section this morning caused a loss of \$4,000. A number of buildings were burned. For a time it looked as if the town was doomed.

St. Louis, March 26.—Labor leaders here have been advised that the new political party proposed by Gompers, president of the Federation of Labor, will be launched in St. Louis, May 8, when Gompers will come here to address the farmers' convention. It is planned to make the party a union of the farmers of the country and men affiliated with union labor. The party platform will be outlined in Gompers' speech to the farmers.

THIRD DISTRICT SENATORIAL BEES BEGIN TO SWARM

Buzzing in Many Bonnets on Both Sides of Grand Rivers.

Henry Lawrence Says He Might.

JUDGE PATTERSON CANDIDATE.

On whose shoulders will the toga of State Senator Conn Linn fall? This is a live question, not only in the Third senatorial district, but in all western Kentucky, and since the close of the recent session of the senate a number of men have been considered as probable candidates. Senator Linn has announced that he will forsake Kentucky for Oklahoma, and therefore he will not be up for re-election.

Calloway county has had the Senator of the district for eight years, and, although there is not any rule of rotation in the district, the leading men of Trigg, Lyon and Livingston counties are anxious for the honor to be passed around. Henry R. Lawrence, of Cadiz, who was in Paducah yesterday, admitted he might be a candidate for the Democratic nomination. Mr. Lawrence is editor of a Democratic newspaper, chairman of the First District Democratic congressional committee, a considerable backer.

Captain W. J. Stone is held up as Lyon county's candidate for the Democratic nomination. Captain Stone entered the fight against Linn at the last race but withdrew. While in the city several nights ago Captain Stone said he had not considered running, but has heard some talk in his favor, and might not be able to resist the pressure to get into the fight.

Two men in Livingston county are looked upon as available senatorial material. One is Charles Wilson, a prominent attorney, and speaker of the house, and the second is Lal D. Threlkeld. Both are popular men over the senatorial district, and if either should run he might be a factor in the race.

In Calloway county it is said that Henry Chubb, who was representative in the last session of the house, is casting his eyes on the nomination.

Judge Patterson.

A candidate for the Republican nomination is County Judge T. W. Patterson, of Murray, who admits he will be in the race. Judge Patterson's strength may be estimated that he won on a Republican ticket in a strong Democratic county. Trigg county was his early home, while he has spent considerable time in Lyon county, and his acquaintance extends into every county in the district, making him a formidable candidate.

No doubt the county unit pledge will be a factor in the next race. People of the district are said to be fretted with the action of Senator Linn who voted to keep the county unit bill down, when he was elected on his pledge to support the issue. The majority of the district is dry territory, and the local option pledge probably will be a factor.

JUVENILES ARE PLACED ON PROBATION BY COURT

Felix Johnson, Frank Ellis and Fred Smith, negro boys, alleged leaders of a gang that has stolen brass and property from the Illinois Central railroad for several months, were given a lecture by County Judge Alben W. Barkley yesterday and released, provided they will report to the county probation officer regularly. Willie Vickens, a lad who played truant frequently, was given a lecture and he promised to attend school regularly.

Nursy, Have a Little Mercy

Charging that she stole a diamond from a patient in Hot Springs, Ark., the police department of that city is searching for Edith Rayland, a trained nurse, said to live near Paducah across the Ballard county line. A telegram has been received from Chief of Police W. E. Moore, of Hot Springs, and Chief Singery is investigating the case.

Visiting Old Chum.

Mr. Harry Siggle, who is with the Traveling Salesman company, which has been here all week, has been the guest of an old chum, Mr. Charles Ilahe, the well known piano tuner, of 1206 Salem avenue.

POLICE AND FIRE ALARM COMBINED

CITY MAY RENT FIFTY THIS YEAR AND BUY THEM NEXT YEAR.

As the result of a conference between Manager S. L. Pake, of the Home Telephone company, Mayor James P. Smith, Alderman Ernest Lackey, Chief of Police Singery and Fire Chief James Wood, at the city hall, Mayor Smith will include in his call for a special meeting of the general council Tuesday night, the question of making a monthly appropriation of \$50 to care for fifty special fire alarm and police call boxes.

Mr. Pake agreed to rent the boxes for \$1 a month each, and next year the city may appropriate funds to purchase these boxes and also to buy additional ones. The boxes will come from the Dean Electric company of Elyria, O. Mayor Smith included this matter in his call to the general council for next Tuesday night in addition to passing the tax levy ordinance.

The boxes are known as the flash light system and will do away with the present telephoning in reporting. When a patrolman is wanted at headquarters the captain presses a button which flashes a red light on three sides of the boxes. This light can be distinguished for a great distance. The boxes are also equipped with fire alarms, and it is thought that a rental price of \$1 a month will be reasonable. Chief Singery and Chief Wood like the system.

TOURISTS RISK LIVES FOR LOOK

Gatania, Sicily, March 26.—The eruption of Mt. Aetna is partly checked. The lava stream is so large it has partially checked itself and spouting craters are unable to feed it. Cooling edges of the stream serve as barriers. Religious exercises have increased, the people believing their prayers are unanswered. People are parading the streets bearing crucifixes and chanting psalms of thanksgiving in the towns spared by the eruptions.

It is impossible to approach nearer than 150 feet to the streams of lava on account of the intense heat. Tourists are causing the authorities much trouble. If it were not for the cordon of soldiers, surrounding the danger, soon many would be killed. American women tourists are proving the most reckless. Scores of men and women sightseers have been injured by flying stone and cinders. Some seriously.

News of Theatres

One of the greatest comedy successes "The Traveling Salesman," by James Forbes, author of "The Chorus Lady," will be seen at the Kentucky theatre Monday evening. "The Traveling Salesman" has been awarded for months as one of the greatest laugh provokers. The play deals with certain instances in the life of the "drummer" on the road.

A cast of excellence has been engaged by Henry B. Harris, who is managing the production. Among the company are Austin Webb, Rosalind Coghlan, Florence Hackett, Harriett Sheldon, Dan Baker, Joseph Sullivan, Gideon Burton, Jack L. Newton, Geo. M. Revere, Scott Higgins, George Smithfield, John Von Statten, and those two clever child actors, Janet Hackett and Master Albert Hackett.

A company of over forty people, selected with the care and skill of

long experience, will be seen in the musical extravaganza, "The Cat and the Fiddle." The principals are known as popular favorites, including Chas. A. Sellen and the El More sisters. The "Cat and the Fiddle" will be at the Kentucky theatre on April 4.

The Kentucky on April 6 presents Richards and Pringle's Famous Minstrels. While several of the old favorites still remain, many new faces will be seen in the circle this season. A great deal of attention has been paid to the singing and dancing portion of the program. Fred Simpson's Challenge Band of 25 solo musicians are a feature.

H. H. Frazee will present at the Kentucky theatre on an early date for the second time "The Time, the Place and the Girl." During a run of 463 consecutive nights in Chicago it was received with unequivocal approval by the theatre goers of that city. It is a comedy with unique characters and situations as rigid as those used by the best known writers of plays without music. It would be interesting if there were not a song in it, says the press agent.

Dun's Review.

New York, March 26.—R. G. Dun & company's weekly review of trade says:

Good weather stimulates a large distribution of merchandise and reports from the leading trade centers and particularly those in the west and northwest, speak of activity markets in most lines. The iron and steel trade reports increased business which is especially noteworthy in finished materials. This gain is accompanied by a continued decline in prices for pig iron.

The 10 per cent revision in prices of bleached cottons begun by jobbers has extended to agents and a better volume of new business is coming forward. This revision brings quotations to a basis of nine cents for fruit of the loom and 8 1/2 cents for Louisiana and bills. Revisions, unannounced, are also being made in various other lines, but it is too early

for full operations by jobbers on domestics and hence there is uncertainty as to what the final outcome of the revision will be, although it is now possible to do business at lower quotations for chambrays, chevrons, wide sheetings, heavy brown sheetings and fine cottons. Jobbers' road salesmen are booking substantial orders for fall cottons for retailers, and the latter are doing a good Easter trade.

Stocks are not cumbersome. The export trade on cotton goods for far eastern shipment reached 25,000 bales. Curtailment of production, in cotton, worsted and yarn mills is being forced by the unbalanced relations of finished goods prices and the maintained price of raw materials.

Business in footwear shows some improvement, although contracts sent in by salesmen on the road are not as large as expected. In leather, conditions are more satisfactory and trade is increasing and in some varieties a slightly stronger tone is manifest.

The hide market shows marked strength with especial firmness in the domestic stock.

COMMITTEE . . . OSTENTATIOUSLY THRESHES OUT CHAFF.

Riverside Hospital Probes Rumors And Decides They Are Wind.

Riverside hospital staff and all physicians connected with the institution were exonerated of all so-called "charges" last night by the investigating committee of the general council, and the committee decided to conclude its work and make a report to the general council at the next meeting. Alderman Potter and Councilman Duvall were instructed to prepare the report to be submitted along with the evidence taken last night.

Witnesses examined were ex-Councilman Judge R. T. Lightfoot, Mayor James P. Smith, Miss V. M. Knisley, superintendent of the hospital, Miss Elizabeth Strout, bookkeeper, Dr. Frank Boyd, County Physician L. E. Young, City Physician W. J. Hagg, Alderman Ed Hannan and Dr. Horace Rivers. One question raised was that of dispensing with either the superintendent or bookkeeper to reduce the expenses. Dr. Rivers said he thought one of them could be dispensed with, but it was necessary to have a superintendent. Every physician testified that the hospital could not possibly be run as efficiently as it had been.

Before the committee adjourned Dr. Boyd spoke in behalf of the hospital staff and physicians and said Riverside was a growing institution. He said to cut the expenses would mean a downward path for it. Dr. Boyd explained that no business could stand still, but it must either go forward or decline. The committee was convinced that there are no grounds for any "charges," and, in fact, it was all hearsay and idle rumors from "knockers." Members of the committee were Councilmen Duvall, Horton and Hannan and Aldermen Potter and Oehlshlager. Miss Emma Mix was official stenographer.

The Week In Society.

IN EASTER LAND.

Dawn—it is dawn in the Easter land!

Far have our caravans come, and we

Here at the edge of the desert stand, looking away to the joys to be.

Aye, it is dawn, and we've journeyed far

Led by the glow of the Easter star.

Who at the gates of the Easter land

Had us good morning, and lead us in?

Children, a world of them, hand in hand,

Palms and processions of lily kin.

Enter! Oh, and was the march, and long—

Join in the triumphs of Easter song.

All is forgotten on Easter day—

Shadows and fears of the wintry path.

Here at the end of a troubled way,

Fragrant the welcome the Easter hath.

This is the haven the pilgrims scanned;

Dawn—it is dawn in the Easter land.

Vale Sackcloth and Ashes.

The Lenten season is at its close. Society has observed it most devoutly and is ready to start afresh on a round of gaiety. Easter coming so early this year will give a long spring social season and there is prospect of it being fully utilized. So far, there

are no unusual announcements for Easter week beyond the German club's cotillion, but there are rumors of April being crowded with pleasures. The social clubs, suspended for Lent, will resume. There are rumors of weddings galore, and two already announced will be April affairs, with a round of attendant gayeties—and "showers" for which April is famed.

Easter will be greeted joyously. There has been enough of a hint of the spring-time in the air to make everyone want to shed the winter chrysalis and become a pretty fluttery butterfly, a thing of spring-time charm and summer beauty. In earnest. Should the day be in keeping with its promise the outward attire and the inward spirit will be in delightful unison and beauty.

Easter Ball at Three Links.

Invitations have been issued by the Plain City lodge of machinists No. 123 for an Easter ball, at the Three Links building on Monday night. It will mark the close of Lent, and a large number of guests will be present.

Pretty Easter Party.

Little Miss Dorothy Baker Wright, the attractive daughter of Mr. and Mrs. Will Wright, is celebrating her fourth birthday this afternoon from 4 to 6 o'clock with an Easter party at her home, 227 North Ninth street. It is a prettily planned affair and the Easter idea is effectively carried out. The table is charmingly decorated with spring flowers and each small guest has a dainty little basket with a chicken in it and filled with candy eggs at her place. The pink and white color motif is attractively emphasized in the table appointments and in the lace, cakes and candles. About 50 children are invited.

Grahamville Party.

A delightful party was given by Mr. and Mrs. Bud Melton, of Grahamville, in honor of their niece, Miss Ruby Falkner, of Paducah, who is visiting friends and relatives in Paducah and Grahamville. Miss Falkner is formerly of this county and is a charming young lady of many friends. Music and games were enjoyed. Music was rendered by Miss Ruby Tapp. The evening was enjoyably spent. Porch Party Way Down South in Georgia.

Says the Thomsville (Ga.) Times:

"Miss Cornelia Smith entertained very delightfully at bridge on Tuesday morning at the home of Mrs. Dismuke, in honor of Mrs. J. S. Montgomery, Jr., and Misses Corinne Winstead and May Owen, of Kentucky. The game was played on the porch and the first prize, a dainty embroidered handkerchief, was won by Mrs. Henry and the guest prize, a pretty collar and jabot, went to Miss May Owen. After the game delicious refreshments were served. Miss Smith's guests were: Mesdames E. W. Edgar, M. M. Cooper, W. A. Brittain, P. C. Welch, Frank Berry, of Atlanta, Oscar Groover, F. D. Dismuke, J. The Well Known and Popular Leading Lady

Tells how she came to have a wealth of glossy, beautiful hair. Head her letter.

"I am a constant user of Newbro's Herpicide and can most cordially recommend it as an unsurpassed hair remedy."

"I first came to use it in this way. My hair was originally very long, black and glossy, but after a severe sickness it began to fall terribly and lost all its gloss and loveliness. A friend of mine, to whom I was telling my trouble on a street car, said: 'Why don't you try Herpicide? That will save it' and pointed laughingly at the 'ad.' with the three funny heads. I thought that having tried nearly everything I might as well try one more remedy. I bought a bottle of Herpicide, without much faith in it, and have used it ever since with the result you see in the picture. My hair stopped falling out, began to grow and has now regained its old time gloss and luster. Much thanks to Herpicide."

PAY DISABLED SOLDIERS.

\$1 a Day Provided in Bill Reported From Committee.

Washington, March 25.—One dollar a day for all old soldiers incapacitated in the service, is provided in a bill reported favorably from the house committee on military affairs by Representative Sherwood (Democrat, Ohio). The bill has been before the committee six or seven years and comes before the house now as an amendment to a measure introduced by Representative Townsend (Republican, Michigan), providing for the retirement of army officers at the age of 70 on one-half or one-third pay, dependent upon length of service.

Representative Sherwood, himself a Civil war veteran, retiring as a brigadier general, was jubilant over the successful reporting of his bill.

"I have been trying to get this bill before the house for five years," said Gen. Sherwood. "Last year I got it out by one majority, but Speaker Cannon refused to recognize me to bring it up for consideration. This year I am going to bring it up, or there will be hell to pay."

For Sale or Removal.

All the buildings on the southwest corner Ninth and Jefferson streets. Want bids to remove or will sell at a reasonable price as they stand. Apply to W. M. Hughes, Paducah Banking Company.

And the sole thing that I remark upon the difficulty, this:

We do not see where it is. At the beginning of the race:

As we proceed, it shifts its place. And where we looked for crowns

to fall,

We find the tug's to come—

that's all."

Cheerfulness and hope will never be on a very solid foundation unless they are built upon the concession that life is hard, and that the most difficult struggle is worth while if it is rewarded with any improvement.

Daily Thought.

"Never try to succeed by unfair means. Experience proves that honesty is the best policy."

Editorial 1234 789 123
The world doesn't need higher criticism so much as higher authority.

That trip from Cairo to Memphis by camel must have recalled to Roosevelt's mind the comforts of a Mississippi steamboat.

Dr. Wiley predicts that water, wind and alcohol will run the world. At present the three are in anything but a mood to "pull all together."

We heartily recommend that the general council accept the report of Alderman Potter's special Riverside hospital committee and relieve it from its onerous duties. Enough dust has been kicked up by investigating anonymous communications. We receive unassigned letters frequently and throw them all in the waste basket, where they belong.

Governor Willson need not fear for his reputation. Secretary of State Ben Bruner called Theodore Roosevelt a liar in a speech at Louisville during the campaign for delegates to the last national Republican convention. Ben is not well wired; but he is of the proof construction, and though his automatic fire alarm system is liable to frequent disturbance, his passions never consume him.

The Louisville Evening Post, disappointed over the distribution of federal patronage in Kentucky, has delved into history in an effort to show that the internal convulsion recently sustained by the national Republican party is not merely nature's warning that it has taken some disagreeable morsel into its system, but constitutes symptoms similar to those experienced fifty years ago when national Democracy joined the political haunts. The Post's diagnosis is wrong. This may not be a case of stomach ache; but if the pain is what the Post says it is, it presages the birth of a new party, not necessarily the death of an old.

Professor Crabbe, state school superintendent, will retire. That is not an evidence of the natural retreating disposition of the crab, nor an evidence that, like his crustaceous relatives, he goes backward. Professor Crabbe really is going forward. He will become head of the Eastern Kentucky Normal school. He is the first school man that has been at the head of the Kentucky school system in 20 years. Professor Crabbe is the recipient of praises from the whole state press. He leaves the system in better condition than he found it.

KNOCKING THEIR HEADS TOGETHER.

When Gompers, Mitchell, et al. were sentenced to jail for violating a federal injunction, many hot-headed laboring men declared the courts were against them. Now, if the precedent in the Gompers case serves as an excuse for sending the Chicago multi-millionaire packers to jail for the same offense, we shall hear their allies declaring the country is experiencing a reign of anarchy, that capitalism is being discouraged, that property is in jeopardy. Yet we, of the middle class, who pay the taxes and fight the wars, and vote without pay or prejudice, and bear the brunt of

strikes and lockouts, and pay the high prices, and "chip in" on all the charity and civic enterprises, and stand the cornea of one side and the extortion of the other, trusting in Providence and getting all the good out of life we can, know that it serves them both right. Some of these days we will wake up and take hold of the industrial situation and settle it; but the first step in stopping the fight is always to knock the belligerents' heads together.

THE WHOLE CITY.

It is the boast of a city having the commission form of government, that its legislative-executive department represents the whole city, while a general council merely represents wards. Paducahans believe they have a general council, which represents the city, and we shall soon put that faith to the test when the matter of leasing special assessment bonds for streets, sewers and sidewalks comes up for action. We trust that councilmen and aldermen will not try to issue bonds for working over or graveling streets in their wards; but that the bonds will be employed only for paving streets with brick or blut-lithic or other material and constructing sewers, and that the work will be done first where most needed and most desired. To issue bonds for graveling streets and cause people to pay for ten years with interest on work that will have to be done over before it is paid for is poor economy. This warning is not made, because we believe it is needed; but it is not amiss, and maybe it will save the councilmen from the importunities of their constituents, which is very embarrassing to one, who is trying to represent the whole city, instead of his ward.

PROTECT THE CHILDREN.

The Livingston Echo denounced the action of county authorities in placing in jail a 12-year-old girl, accused of trying to poison her foster mother, who had chastised her. It quotes the Kentucky statutes on the subject.

Without confining our remarks to the particular case, as we are not well enough acquainted with it to bear witness, we agree that the Echo is right. To anyone, who has visited a jail and studied the characters confined there, the idea of placing among them a child of impressionable age is abhorrent.

The law says:

"That no child under fourteen years of age shall, under any circumstances, be incarcerated in any county jail or police station, and any officer or person knowingly violating this provision of this act shall be guilty of a misdemeanor and, on conviction, fined in a sum not to exceed one hundred (\$100) dollars."

McCracken county and Paducah now pay a probation officer \$1,200 a year; but if children are to be placed in jail awaiting trial, and then sent to the reform school afterwards, it would seem that with a trustee officer supported out of the school money, Paducah's numerous policemen and the county officers, the expense of a juvenile officer is superfluous. But if all the accessories to a properly conducted juvenile court are secured and properly used, the probation officer can prove himself a great advantage to the community.

The usual \$1,800 for the massage artist's salary in the senatorial bath-room was omitted from the appropriation bill. Senators are awakening to the fact that one good coat of whitewash each session is more effective than a daily scouring.

THE MIRACLE OF SPRING.

He that bath eyes let him see. Do we wonder at the miracle of the resurrection, when all around us nature is performing the same miracle before our very eyes, as she has been doing every spring time since we were born? The ox roams the field in search of the succulent young grass, stolid and indifferent to the beautiful mystery of creation. No scientist has, or ever can, we verily believe, explain the resurrection of the soul of the grain into the multiplied life of the stalk and ear; and, yet, some folks who do not understand the material world, boast that they are materialists; while others, who do not understand the spiritual world, any better, boast that they do not believe the material world exists. Look at the world about you, wonder and admire: it is there, it is real; but be thankful that it is. The ox is indifferent.

THE PUBLIC FORUM.

The present is almost universally recognized as a barren age as regards poetry. The great Victorians have passed and have left no successors of equal fame and possible chances for immortality. The twentieth century promises to be an era of fine and practical achievements as brilliant as to be, temporarily at least, satisfying.

It is, nevertheless, gratifying to note that even in what we have grown accustomed to admit is a prosaic age, or at least the age of prose, poetry is not neglected among the influences that shape the education of youth. In the schools of New York, and perhaps in those of most cities and towns, the memorizing of standard selections from the poets is a part of the educative formula.

How far time and taste have changed may readily be seen by a comparison of the school readers of today with those in use a quarter of half a century ago. This change is made more striking by noting, for instance, the titles of the forty poems prescribed by the board of education of a western city to be memorized by the pupils in their passage through the various grades. Among the poems in the list the inclusion of a number not to be found in the older readers will be most noticeable to the middle-aged or aged reader of today. Such are "Wynken, Blynken and Nod," "My Shadow," "Songs of Treetop and Meadow," "The Flag Goes By," "October's Bright Blue Weather," "Flower in the Crannied Wall," "The Recessional," "O Captain, My Captain" and "The Battle Hymn of the Republic."

Other selections, such as "Ied in Summer," "The Counterpane" and "September," are still less familiar to those whose school days are now far behind them.

Perhaps even more striking than the inclusion of newer poems is the omission of old favorites to be found in almost every American reader a generation ago, such as "Thanatopsis," Miss Milford's "Helen," Gray's "Elegy," Byron's "Waterloo" and "Song of the Greek Bard," Collins' "Ode on the Passions," Hood's "Bridge of Sighs" and "Song of the Shirt," Macaulay's "Horatius at the Bridge," and "Battle of Ivry," Milton's "L'Allegro" and "Il Penseroso." Such omissions in a list of poems to be made the permanent possession of school children by memorization are difficult to explain.—New York World.

"MY AFFAIR," SAYS LESLIE.
Pittsburgh is Silent Concerning Grand Jury Report.

Hot Springs, Ark., March 26.—The answer made by Max G. Leslie here tonight to the grand jury report in Pittsburgh that he got \$25,000 from the Columbia National bank, and paid out only \$1,700, that went to President Brand of the common council, was brief. "I have nothing to say."

"When and why did you leave Pittsburgh?" he was asked.

"That is my affair," was the answer.

"Will you return soon?"

"I will return when I get ready. I have never discussed these affairs and positively will not do so."

NIGHT RIDER CASES UP

Two Complaints by Northwest Tennessee Ex-Residents.

Alleging that on August 27, 1909, they were cruelly beaten and driven from their homes in Johnsonville, Tenn., into the state of Illinois, that they were held captive for three days, that they suffered physically, financially and mentally from outrages committed upon their persons, C. H. Griggs and Nellie Rollins are suing Kilt Woods and thirty others for \$2,500 and \$25,000 respectively. These cases will come up in the April term of the federal court at Jackson, Tenn. The declaration alleges that there was a conspiracy among the men named in the bill to harass plaintiffs, and the wording of the document sounds like an accusation of night riding couched in legal terms.

SHIP SIGHTS EMPTY RAFT

Mute Evidence Points to Disaster at Sea.

Philadelphia, March 26.—A raft 30 feet long, waveswept and with only a broken mast from which fluttered a torn fragment of a sailor's shirt, was passed at sea by the German steamer Schatzfeld, which has arrived here from Calcutta. The mute evidence of a possible disaster was encountered by the Schatzfeld March 17 in latitude 37.44 north, longitude 45.37 west. The raft had been substantially constructed, presumably by the crew of an abandoned lumber schooner, but the vessel on which the raft had been built was nowhere to be seen. The following day the Schatzfeld passed a brown painted wooden derelict with keel above water.

S.S.S. CURES MALARIA

Malaria is a species of blood poverty known as anemia. It is a condition in which the circulation is so weak and impure that it is unable to supply the system with sufficient nourishment and strength to preserve ordinary health.

The medical profession is divided in opinion as to the manner in which malarial poison gets into the blood. Some take the position that it is an atmospheric poison, the specific germs of which are breathed into the lungs and thus transmitted to the circulation. Others advance the opinion that persons become inoculated with the poison through the bites of mosquitoes. All however agree that MALARIA is a blood affection, and any treatment to successfully overcome it must not only purify this vital fluid, but at the same time add the necessary qualities of richness and strength to the circulation.

The malarial poison destroys large numbers of the rich, red corpuscles of the circulation, and the peculiar paleness of anemic persons is due to this fact. In the first stages of Malaria there is a bilious condition of the system, constant bodily weakness, poor appetite, and a "no account," tired feeling.

S.S.S. searches out and destroys every particle of malarial infection and builds the blood up to a healthy, nourishing condition. Then the system receives its required nutriment, the bright red corpuscles begin to multiply in the circulation, shallow complexions grow rosy and flushed with health, the liver and digestion are righted, the appetite improved, and the system vitalized and refreshed in every way. S.S.S. is a safe and pleasant remedy as well as an efficient one. If you have Malaria we will be glad to have you write us describing the case. We will send free our book on the blood and at the same time our physicians will give you some medical advice that will be of great service to you in curing yourself with S.S.S. No charge for the book or advice.

A PHYSICAL WRECK.
During 1909 I was running a farm on the Mississippi River, and became so impregnated with malaria that for a year afterwards I was a physical wreck. I took a number of medicines recommended as blood purifiers, chills came and malnutrition resulted, but nothing did me any good until I began to use S.S.S., which I did about a year ago. The result was that after taking several bottles of the large size I was well and strong as I ever was, and have never had a chill since. I expect to take S.S.S. every year as a preventive, and would advise everybody else to follow my example.

CARELESS FORGER MAKES A MISTAKE

COPIES NAME OF BANK OFFICIAL IMPROPERLY.

Nevertheless He Works Muskogee, Okla., Bank for \$3,197.

DRAFT ON CITY NATIONAL

Misspelling a name resulted in the discovery of a worthless draft, being a duplicate of the drafts issued by the City National bank. The bad draft was discovered in New York after the First National bank of Muskogee, Okla., had honored it for \$3,200, and now the police and private detectives are looking for C. E. Klein, who is alleged to be guilty of publishing it.

February 21 a man went to the City National bank in this city and deposited \$10, and then took out a New York draft on the New York exchange for \$3. Nothing more was heard from the draft until this week when the bank received a telegram, stating that the draft was not original. It appears that after securing the draft Klein hurried to Muskogee after duplicating the draft and making it read \$3,200 instead of \$3. He appeared as a prosperous man in Muskogee and gained the confidence of the few people he met. He made a purchase of land it is said, and offered the draft in payment, explaining for the bank to retain \$300 in payment. He was handed \$3,200 and after lingering in Muskogee a few days vanished on another prospecting trip.

When the draft was presented to the Importers and Traders bank of New York it was noticed that the draft was signed by "Emmett S. Hagley, assistant cashier." Instead of Emmett S. Hagley, assistant cashier, The bank had made an error in signing the misdirected cashier's name, and this was the first detection of the duplicate paper. As Klein has \$3 on deposit in the Paducah bank, the Muskogee bank will be credited with it, and the loss will be \$3,197.

The Proper Thing to Do.
The celebration of Easter is almost as universal as Christmas, and how children love it! All the symbols are so beautiful and even the smallest child may be taught the wonderful significance of the resurrection as it comes to us with every return of spring.

There are many charming devices for entertainment to be given during Easter week, but the time-honored egg hunt is best loved by boys and girls. Let me tell of this original way of varying the "hunt." Have all kinds of eggs, of candy, china, favor eggs and the real fruit of the hen, glazed, silvered and colored. Then make a big score card and put up where it may easily be consulted. Place a value on the different eggs, a gold one to count twenty; silver, ten; blue ones, five; candy ones, four; the very smallest, one, etc. Then for very special prize favor eggs, fifty will be the score. Give

the guests baskets or silk bags for the spoils and have plenty of assistants to help the children add up their eggs correctly, each one to keep what he or she finds and, besides, have rewards for the best scores. This will add zest to the "hunt" and take fully an hour. If the weather is fine some of the eggs might be hidden out doors. The centerpiece for this party may be a huge egg in a nest of tinsel and imitation grass; on cracking the egg it will be found to contain an egg or Easter favor for each guest.

A sport almost as old as Easter itself is what is called a "fair fight" or "egg fight." In olden times this fight took place on Easter Sunday before service. The largest clear space in the village was chosen and the ladies assembled from far and near.

The game consisted in striking an egg first "point to point" with an opponent, then "butt to butt." The clever boy tried to select a very tough shelled egg that would knock the other player's all to bits. If the egg were not broken "point to point," the next play was "butt to butt." The victorious egg was called the "cock." Sometimes the "cock" would stand the strain of several successful attacks, and then would be called "the cock" of "three" or "four." In the interval between the lengthy service "fair fight" was resumed. English history tells us that back in the time of Edward I the custom of rolling eggs on Easter Monday prevailed.

How many know that the observance of Easter dates back to the year 68. In 1752 the rule was adopted that makes Easter Sunday fall on the first Sunday after the full moon which happens on or next after March 21. If the full moon happens on Sunday, Easter is the next Sunday after.

Lord Granard was once visiting some of his tenants. One of the farms he visited contained a large assortment of live stock in a more than usually healthy state, and halting before a sty he said to the owner: "These pigs of yours are in very fine condition." "Yes," agreed the proud farmer, "if we were all as ready to die as them, my lord, we'd do."

Refrigerator Time is Here!

We are exclusive agents for the celebrated HERRICK REFRIGERATOR. As the time is here when you need a refrigerator, we want to invite your most critical inspection of the HERRICK REFRIGERATOR. If you buy something good in this line something that will answer the purpose in every detail, you will not have occasion to buy again soon, and we can assure you that you will never have cause to regret having bought a HERRICK. What we say of this piece of goods is based on five years of experience in the use of it. We have learned by experience that the HERRICK uses less ice with the same storage space than any refrigerator made. We have also learned that we can give you more storage space in the HERRICK for the same money than you will pay for a cheaper make of refrigerator. THE HERRICK REFRIGERATOR has no zinc or metal lining to mould and corrode. It is lined with odorless spruce, plain and enameled, which keeps the refrigerator pure and sweet at all times.

The Circulation in the Herrick is Perfect

A careful mother does not allow her children to play with matches. Keep them in a Herrick Refrigerator where they will be safe from babies and mice. Matches can be kept indefinitely in a Herrick, because the circulation is so perfect they cannot become damp.

The Water-cooling device in the Herrick Refrigerator cannot be equalled. The water tank, as you will see from the cut, is attached either from the top or side of the refrigerator and is on the outside. The water passes from this tank through a coil on which the ice rests, and is drawn from the faucet at the side of the refrigerator, ice cold. The water does not come in contact with the ice at all, therefore, it is not tainted with ammonia as water usually is when the ice is put in the water. Now, in the Herrick we feel perfectly satisfied that it will answer every purpose desired and expected of a refrigerator and make the following proposition:

Thirty Days' Trial Free

Every person who expects and wants to buy a refrigerator this season and is not fully satisfied that the Herrick Refrigerator will render the service recommended, we will gladly place the same in your house on THIRTY DAYS' FREE TRIAL. If, at the end of that time you are not satisfied with the service rendered after following the directions given, we will bring the refrigerator back without any cost to you whatever. COME TO OUR STORE, AND SEE THE CELEBRATED HERRICK REFRIGERATOR, BUILT UP AND IN OPERATION IN OUR SHOW WINDOW AND WE WILL take great pleasure in demonstrating the superiority of the Herrick over the other makes of Refrigerators.

A Halted Woman.
She bore in her dreaming womb,
And languished into the face of Death;
She languished, in her strange agony—
To give her little baby breath.

Then, by some holy mystery,
She told us her sacred breast,
Soothed us with little birdlike words,
To rest—to rest—to rest—to rest.

Vet, softly fed us with her life—
Her bosom like the world in May;
Can it be true that men, thus fed,
Feed women—as I hear them say?

I wonder if such men as these
Had once a sister with blue eyes,
Kind, as the soothing hand of God,
And as the quiet heaven-wise.

I wonder, when all friends had gone,
The gay companions, the brave men,
If in some fragile girl they found
Their only stay and comrade then.

Shall she who bore the son of God,
And made the rose of Sappho's song,
She who saved France, and beat the drum
Of freedom bear this vulgar wrong?

Have no part in the world she made—
Serp of the rainbow, vases flower—
Save knitting in the afternoon,
And rocking cradles, hour by hour!

—Richard Le Gallienne, in Harper's Weekly.

Book Companionship.
Books are a guide in youth and an entertainment for age. They support us under solitude and keep us from being a burden to ourselves. They help us to forget the emptiness of men and things; compose our own cases and our passions; and lay our disappointments asleep. When we are weary of the living we may repair to the dead, who have nothing of peevishness, pride or design in their conversation.—Jersey Cottler.

"We dined at Mrs. Crankleigh's last night."
"I suppose you had a good dinner?"
"Well, we found out that Mrs. Crankleigh is an active member of the society for boycotting all the high priced foodstuffs."—Cleveland Plain Dealer.

The after effect in the worst thing about getting drunk—likewise, also, about getting married.

WORLD STORIES.

Some of the Great Myths Which Are a Valuable Part of Life.

In the old days, before men understood how this world was made and why so many wonderful things took place in it every day, such, for instance, as the rising and setting of the sun or the coming of spring, the growth of trees and flowers and the falling of rain, in those days they made up stories about these things. Since they knew of nothing more wonderful than the human beings about them, they imagined that all these marvelous results were produced by creatures like themselves, yet different, wiser and more powerful. Thus they thought that every tree contained a dryad, a lovely girl who made the tree grow and brought its fruit to perfection. And all the streams and fountains had their naiads, the sea its mermaids and mer-males, and life itself of the people was supposed to be ruled and guided by these beings, to whom they gave various names and ascribed different powers.

Naturally they told each other many wonderful stories about these creatures. Gradually these stories got

written down; and even now, so many thousand years later, we can read them. Our friends have changed, we no longer believe in fauns and tritons and nymphs. But it would be a pity if we stopped reading these stories because of that. For, in their own way, these tales are as true as the actual facts we learn nowadays of just how the trees and plants do really grow and what it is that makes them sun seem to rise and set. They are true because they tell how men's minds grew, and began to take hold of the problems of life about them, and tried to explain things, and how they realized the beauty and the wonder of the world. These books are true pictures of the lives of these far-away people, and if we had never heard or read them, a great part of what goes to make us what, now—days, we are, would never be understood by us.—From Hildegarde Hawthorne's "Books and Reading" in December St. Nicholas.

Tomorrow afternoon the Dick Fowler will run an Easter excursion to Joppa and return, leaving the wharfbat at 2 o'clock. A large crowd is expected to make the trip.

At the wharfbat the Kentucky is receiving freight this afternoon and is due to leave this evening at 6 o'clock for Riverton, Ala.

The Margaret is due tomorrow from the Cumberland river with ties.

Bids will be opened tomorrow by the Illinois Ferry company for the wharfbat to be built at once. Five bids have been submitted as follows: Jim Pruitt, Paducah; G. S. Jones, Paducah; Mr. Cutting, of Metropolis; A. B. Smith Lumber company, Brookport, and L. E. Hacker, Mound City. The lowest and best bidder will be awarded the contract.

The river here is receding slowly and will probably come to a stand next week. Rivermen say this month has seen remarkable weather with a good stage of water. Three years ago the stage at this time of the year was about 7 feet.

A deal is now pending between the Ryman steamboat line of Nashville and R. E. Thomas & company, of Paducah, shell merchants, wherein the latter will buy the towboat Chaney Lamb. Mr. Thomas said this morning the deal would probably be closed Tuesday. The Lamb is now at Calto where she delivered a tow.

Easter Tide

**Easter Heralds the Good Old Springtime,
Springtime Means Housecleaning, Refurnishing Time.**

If a store told me, through its newspaper publicity that it could save me money on the things I had to buy—that its store service was par excellent—that its stock of goods was exceptionally complete—that it was strictly a one-price store and that all were assured the same fair treatment as to price—I'd test that store out, and if they did as they said they would I'd be their customer, always; if they didn't, I'd be tempted to leave them entirely alone.

And what we want you to do with us is to try us out—give us the test—we know you will be our customer, always. Then why not do it, at this spring housecleaning, housefurnishing time?
